

**FOODTROPOLIS**

**URBAN.CIRCULAR.FOOD.**

**25 & 26 MARCH 2020**

**RESIDENCE MUNICH**

# INVITATION

Dear Sir or Madam,

You are discussing the **future of our food**? You are thinking about innovation and farming in the cities? Because you know, in 2030, around 80 percent of all food will be consumed in cities.

You see **artificial intelligence** as a future technology for food production? You know intelligent agricultural machinery for **precision and vertical farming** and wonder whether robotic bees will be used to pollinate flowers in the future? You see the recycling of food as a way of conserving resources and achieving the **UN sustainability goals in 2030**?

You want to know how waste products and by-product streams will be processed in the future?

Then you should be there, at the **Global Food Summit 2020** on **25 & 26 March 2020** at the **Residenz in Munich**. We give a voice to the future of food.

Speakers from Singapore, China, Canada, the USA, the Netherlands, Israel, Australia, Bangladesh and Germany, from science, companies, associations, politics and start-ups present their ideas and research to our international guests.

**Debate how we will eat tomorrow and help shape the future of food with us.  
Be the change!**

Book your ticket now at
